Dear Frank,

I am writing to thank you for the outstanding job Style Construction did with our 111 Peter Street build out.

We had a very short timeline to complete this project and your crew came through for us. Every project always has issues and that is to be expected especially with larger projects, however, Style Construction dealt with them in a professional and "can do" attitude that helped alleviate my stress.

Thank you again for your great work and great attitude. I am happy to recommend Style Construction to anyone who requires your services.

Kindest regards,
