

April 4, 2008

To whom this may concern,

It is with great pleasure that we write this letter of recommendation for Chris Sloan and his team at Style Construction.

In October, 2006 we began our search for a space to rent for our Yoga Studio. Mr. Sloan was one of three contractors we were introduced to by our real estate agents, and we were immediately impressed with Chris's willingness to meet us at all our prospective locations- and there were many. He patiently offered his time and knowledge, giving each space an honest assessment, with our best interests foremost in his mind.

Finally, over the summer of 2007, we signed a lease at 100 Sheppard Avenue East and immediately brought Chris on board to manage the project. The space needed a complete demolition and build-out, and we had every confidence that the Style team would be able to execute this project to our satisfaction. From designing the space, to dealing with building staff and management, and making wise suggestions when decisions needed to be made, we found the whole experience with Style to be smooth and enjoyable. From start to finish, the work was completed with a standard of high quality and all in a very professional and time efficient manner.

We would undoubtedly recommend Style Construction to manage your next project. Should you have any questions, or would simply like to speak with us for more details, don't hesitate to get in touch.

Sincerely,

Darcy Hagerman and Marisa Wardinger
Directors, Moksha Yoga North York

100 Sheppard Avenue East, Suite 100
North York, ON

Telephone #: 416-225-6767

*Client: Moksha Yoga North York
Address: 100 Sheppard Avenue East
Completed: January 2008
Length of Construction: Three Months*

Moksha Yoga is a highly respected name in the hot yoga industry. The goal for this project was to create a warm, energetic and inspirational setting for participants while they practice this ancient method of exercise.

Style Construction worked hand in hand with top designers to incorporate traditional and modern design in this studio. A beautiful and bright main entrance was created including an extraordinary reception desk built by our mill workers consisting of all natural barn board. The large studio was supplied with bamboo flooring and heating panels, resembling the existing t-bar ceiling, to reach a temperature of 110 degree Fahrenheit. Construction also consisted of 2 change rooms, both handicapped accessible and 2 massage therapy rooms.

The construction was within budget and we met the deadline for the grand opening on February 1st, 2008. Moksha Yoga North York has thrived at their new location and their clients thoroughly enjoy the atmosphere that Style Construction helped achieve.
